## SALON INTERNATIONAL DES INVENTIONS GENÈVE

Après examen, le Jury International a décidé

de remettre à: **Stéphan AVER**

pour l'invention: **STOR-H est un nouveau standard d'énergie basé sur l'utilisation de cartouches d'hydrogène permettant d'apporter une nouvelle forme de mobilité verte légère.**

MÉDAILLE D'OR  
GOLD MEDAL  
GOLDMÉDAILLE

Genève, le 12 avril 2019

Le Président du Jury: David Taji

Le Président du Salon: Jean-Luc Vincent

During 47<sup>th</sup> International Exhibition of Inventions Geneva which took place from 10 April to 14 April 2019, STOR-H was awarded the Gold Medal from a Jury internationally reputed.

This medal rewards the innovative character as well as the strong growth potential of STOR-H, the new energy standard designed with breakthrough technology innovations based on the use of hydrogen cartridges to power green urban mobility and to enable a new way of consuming and using zero-emission energy on a global scale.

Meeting the challenges of global warmings and the energy transition depends on our ability to reinvent the way we live, move, and consume energy, and we are proud that STOR-H is recognized as a major disruptive solution for urban mobility of the future.
